

Emissions Monitoring Criteria

Calculated Effective Dose Equivalent (H_e) to a Member of the Public, mrem/yr	Required Monitoring
$H_e \geq 0.1$	<ol style="list-style-type: none">1. Continuously monitor emissions2. Identify radionuclides contributing $\geq 10\%$ of the dose
$H_e < 0.1$	<ol style="list-style-type: none">1. Conduct periodic, confirmatory measurements to verify low emissions. (Note: inventory records may be used to satisfy this requirement in some cases.)
